"German Syrup"

G. Gloger, Druggist, Watertown,

Wis. This is the opinion of a man

who keeps a drug store, sells all

medicines, comes in direct contact

with the patients and their families,

and knows better than anyone else

how remedies sell, and what true

merit they have. He hears of all

the failures and successes, and can

therefore judge: "I know of no

medicines for Coughs, Sore Throat,

or Hoarseness that had done such ef-

fective work in my

family as Boschee's

Sore Throat,

German Syrup. Last

winter a lady called

Hoarseness, at my store, who was

suffering from a very

severe cold. She could hardly talk,

and I told her about German Syrup

and that a few doses would give re-

lief; but she had no confidence in

patent medicines. I told her to take

a bottle, and if the results were not

satisfactory I would make no charge

for it. A few days after she called

and paid for it, saying that she

would never be without it in future as

a few doses had given her relief." @

A Hint for Campers.

One season when I was camping on

Lake Winnepesaukee, N. H., night found

us in a wild cove, surrounded by dank

swamps and morasses, and consequently

infested with mosquitoes. We disliked

the place, but the night was dark, we

were on a strange shore, and reluctantly

we pitched our tent. It proved just as

we expected. The little pests swarmed

upon us in clouds. Sleep was impossible,

and we devoted the first hours of the

evening to fighting our small enemies.

We smoked cigars and pipes until we

could scarcely breathe in the stifling air.

This they seemed to like, and buzzed

the more merrily for it. We scented

ourselves and the bedding with essence

of peppermint, with spearmint and car-

bohe acid, which pleased them so well

that the myriads inside the tent called

upon other myriads outside to come in

and enjoy it. The situation was getting

desperate.

But at last I thought of one more ex-

pedient, which had been recommended

but which I had forgotten. I searched

through my stores and brought out a

piece of gum camphor. Taking a piece

about the size of a walnut I placed it on

a tin plate and set fire to it. It burned

as readily as pitch, with a bright, clear

flame, and apparently no smoke. And

it acted like a charm. In two minutes

the noisy hum of the mosquitoes had

ceased; in five minutes not one of our

winged persecutors remained within the

walls of our tent. Then, making every-

thing comfortable and carefully cover-

ing our one window with mosquito net-

ting, we went to sleep and slept the

sleep of the just, with never a bite nor a

hum from our odious foes for the rest

of the night.—Brooklyn Standard-Union

THE MACHINE FOR HARRISON.

It is asserted in Washington upon what is said to be reliable authority that the change in the Collectorship of the New York Custom-house was made to harmonize the Administration forces and secure a Harrison delegation from the Empire State to the Republican National Convention. Collector Erhardt, who displayed some independence, was so hampered by orders from Washington that he was forced to resign or become a mere tool in the hands of the Treasury Department. As he expressed it, "The office is no longer independent, I am, and therefore we separate." This, it seems, is the object sought to be attained by harrassing him, so that there would be no obstacle in the way of securing a Harrison delegation. Wall Street is with the President and now the powerful influence of the Custom-house, where 1,500 men are employed, and favors can be shown merchants and importers, in exchange for votes, will be exerted in his interest. The South, too, is being harmonized for Harrison. The machinery of the Republican party in that section is run by the Federal office holders, each and all of whom are under obligations to Harrison. Should he be re-elected their lease of office may be extended, hence they will have an "office holding" motive if nothing more in securing his renomination. It is therefore reasonable to assume that the South will be solid for Harrison in the Republican National Convention. He will also, doubtless, have a solid delegation from Indiana, and also from Ohio, if McKinley is elected, besides many votes from New England and the Mississippi Valley, and a few, at least, from the States West of the Missouri, notwithstanding his opposition to free coinage.

At this writing there seems to be no insurmountable obstacle in Harrison's way for a renomination whether Blaine is sick or well. He is what the gold men and monopolists term "a safe President," and they prefer him to Blaine, who is erratic, or anybody else yet mentioned as a possible Presidential candidate on the Republican ticket. However, should McKinley be defeated in Ohio, which is not at all probable if money can elect him, Harrison might have to give way in the National Convention to some body whose tariff ideas mean protection to the masses instead of the classes.

A RECIPROCITY TREATY.

One of those reciprocity treaties of which much has been said and little was known outside of diplomatic circles has been made public. This is the treaty negotiated with Santo Domingo, which comprises the eastern portion of the island of Hayti. The principal products of Santo Domingo are tobacco, sugar cane, cotton, corn and coffee. The plains furnish fine pasture and cattle, horses and mules are numerous. Gold, silver, iron and copper are the principal minerals. The treaty exempts from duty sugar, molasses, coffee and hides, but as these articles are on the free list, and are admitted free of duty from all countries, the Santo Domingoans neither gain nor lose by that. They admit free of duty the following American products: Live animals, meats if not smoked, various kinds of cereals, cotton and oil, coke, coal, turpentine, mining, manufacturing and agricultural machinery, hardware of various kinds, zinc, lead, tin and copper in various forms, building and ship material, paper, printed matter, licks and gold and silver coin and bullion.

As nearly all the articles which the United States can send free to Santo Domingo are protected by our tariff laws, it is difficult to understand how we can export them with profit to Santo Domingo. The inhabitants of the country are of mixed white, Indian and negro blood, and number about 250,000. The history of the country is marked by a succession of revolutions and counter revolutions. The commerce is small, the imports being about \$2,000,000 and the exports about the same, and it looks very much as if the treaty would not benefit the farmers of the United States to any greater extent than the McKinley bill, as it does not make a market for a bushel of wheat or barrel of pork.

The Gazette seems to have unbounded confidence in the influence of the "sack" in the Ohio election, and it pictures McKinley using it on Campbell with effect. It is a matter which every American citizen worthy of the name should regret that the Gazette's estimate of the night of the "sack" in determining the Ohio election is about right.

Last week Nathaniel Holland of Barre, Me., 98 years of age, took the leading swath in his hay field, as he has been doing every year since he was 12 years of age. And the pace he set the other mowers made them fairly tired.

As a result of the dissension growing out of the differences between the jurisdiction of the Carnean rites the Masonic Grand Lodge of Ohio has divided.

Secretary Foster and the Hebrew Congregation.

WASHINGTON, Aug. 1.—Secretary Foster to-day addressed a letter to Simon Wolfe and Lewis Abrahams, President and Secretary respectively of the Union of the American Hebrew Congregations, in reference to overtures made to the Department for the release from detention of the Russian-Hebrew immigrants held at New York and Boston as "assisted immigrants," whose landing is forbidden by law. In their letter to the Secretary Messrs. Wolfe and Abrahams stated that the Hebrew societies of the United States, while they deplored this kind of immigration and had advised their brethren in foreign countries to prevent it, were willing to stand the expense of carrying the immigrants and to give the Government a satisfactory bond guaranteeing that none of those refugees should become a public charge, and urged that practically the enforced immigration of this nature could not be classed properly as assisted immigration within the meaning of our laws. In his answer to the communication, Secretary Foster says: I shall reply upon your voluntary assurance that you will actively urge upon your brethren in Europe the attitude of our laws toward assisted immigration. I also beg to remind you that any tendency abroad to deflect toward this country, a movement of destitute refugees, or to stimulate their immigration hither, would be distinctly hostile to the spirit manifested in your letter had, and the spirit in which the Government of the United States desires to treat this difficult and delicate problem.

A Mysterious Disappearance.
Special to the Journal.
CHICAGO, August 1.—A messenger sent to his father some time ago by the Czarevitz of Russia while in Japan, and whose disappearance and supposed murder in Denver by agents of Japanese noblemen was related some weeks ago in Chicago by a fellow voyager of the courier, has been heard from. Information received to-day by the Marquis St. Croix from St. Petersburg announces his safe arrival there. A mystery still surrounds the first few days after his arrival at Denver, and it is alleged he was the victim of foul play, which did not attain its intended fail results, that he found himself in Texas and is unable to tell how he reached there. The Marquis St. Croix's informant of the courier's arrival at his destination was a German merchant who first told the story here of his mysterious disappearance.

A Heavy Transaction.

DULUTH, Minn., August 1.—The reported consolidation of the Chicago and Minnesota Ore Company with the Minnesota Iron Company, which owns the Tower mines and the Duluth and Iron Range Railway, proves to be a much larger deal than at first reported. The Chicago and Minnesota Ore Company, Chandler, Chippewa, Noma, Delaware and Canton Iron Companies, as well as the Iron Range Railway and Minnesota Steamship Company, it is said, will all be consolidated into one company, which will own every mine at present shipping ore, and with a total land holding of about 40,000 acres. The combined capital will be about \$17,000,000.

A Peculiar Execution of Two Seminole Indians.
Special to the Journal.

WEKIVA, I. T., August 1.—John Frog and Jackson Wolf, two Seminole Indians, were executed this morning in a peculiar fashion by the Seminoles for the murder of John Harg. The whole tribe joined in paying tributes of respect after the men had been shot, and they had a funeral such as would have been accorded them had they fallen in battle. The decree of council had wiped out all blood feud between the families and the whole tribe united in the ceremonies attendant upon the burial.

The U. S. Marshall Orders the Crew of the Itata Ashore.

SAN FRANCISCO, August 1.—Luis W. Martinez, Aid-de-Camp, and General Montt of the Chilean insurgents stated to-day that Marshall Gard at San Diego had ordered Captain Munsen of the Itata to take all his men ashore, and keep them in lodging until the legal proceedings are over. The expense of this would be very heavy, and as the machinery of the Itata has been unshipped, this action is not necessary to prevent her running away. General Montt has ordered Munsen not to obey the order unless Gard brings soldiers to force compliance. He thinks the Marshal has exceeded his powers in the matter.

A Sword Fish on the Rampage.
Special to the Journal.

SAN FRANCISCO, August 1.—Frac Pino, Pietro Maltini and Joseph Courpien, fishermen, tell a remarkable story of their encounter with a large sword fish to-day. They were engaged in fishing near Point Reyes when a sword fish attacked them. They beat the fish off twice with a harpoon and boat hook. The sword fish finally ran its sword through the bottom of the boat and through Pino's leg, terribly lacerating it. The boat began to fill with water but was pulled into shallow water while the sword fish disappeared.

A \$5,000 Sweepstake.
Special to the Journal.

NEW YORK, August 1.—After an interview with G. T. Pulsifer, the Monmouth Park Racing Association has decided to offer \$5,000 added money to a sweepstake mile and a quarter, provided Tenny and Longstreet both accept the conditions of the race and admit other starters.

It is a sweepstake, \$250 each, with \$5,000 added, of which \$1,000 to second weight for age. The race is announced for Saturday next at Morris Park, but the conditions call for a good day and track, otherwise the race to be postponed. Tenny's owner has already accepted.

Races at the Bay District Track.
Special to the Journal.

SAN FRANCISCO, August 1.—At the Bay District track to-day the August meeting of the Pacific Coast Trotting Horse Breeders' Association, opened with a mile dash for yearlings, which was won by Rowena; Maud Fox second. Time 2:39½. The event of the day was the \$4,000 purse for the 2:20 class. The entries were Wanda, (favorite) Lee, Mary Lou, and Una Wilkes. Lee won in three straight heats, Wanda second, Mary Lou third. Time, each heat, 2:20½. The 2:30 class event was won by Daden, Sirena second, C. W. S. third. Time 2:20.

The Counterfeiters Confess.
Special to the Journal.

ASHLAND, Or.,—August 1.—Young Nutt, and the two Coon brothers, arrested yesterday for counterfeiting, were bound over to-day to appear in the United States Court at Portland. They have made a confession of the business and the officers are now hunting for the outfit with which the coin was made. Its location having been disclosed by one of the gang. Another arrest will probably be made yet, which will make a clean haul of the gang.

More Reciprocity.
Special to the Journal.

MADRID, August 1.—General E. Burd Grubb, United States Minister here, has induced the Government to agree to a reciprocal arrangement for the treatment of American vessels arriving at the ports of Cuba and Porto Rico. A committee is sitting for the purpose of revising and bringing the Spanish laws into conformity with those of the United States.

A Valuable Mine Sold.
Special to the Journal.

NEVADA, Cal., August 1.—The Eagle Bird Quartz mine of Washington township in this County which has produced a half a million dollars in gold during the last four and a half years is sold by Oliver Newhouse and Company to San Francisco Capitalists. H. C. Callaghan is Superintendent for the new owners.

Public Debt Statement.
Special to the Journal.

WASHINGTON, August 1.—The public debt statement shows an aggregate debt July 31st of \$1,004,248,958, a decrease for the month of \$1,557,902; cash in treasury, aggregate, \$754,794,697; demand liabilities, \$745,349,751.

Reciprocity.

"Oh, that's merely his friendliness—he does that so you can swear back at him. He enjoys it."—Epoch.

A special train loaded with 345 head of bees passed through yesterday bound for Omaha. These cattle were shipped by George D. Bliss from his ranch in Tulare, California, and it is the third train load he has shipped east this summer; two by the Central Pacific and one by the Southern route. It marks a new era in the cattle business when train loads of bees are shipped from the valleys of California to the Missouri river.

The great race between Tenny and Longstreet for \$12,500 came off yesterday at Morris Park, New York. These horses are said to be the best in training in America to-day. Longstreet was favorite on Thursday but yesterday Tenny was slightly the favorite. Longstreet won by twelve lengths. Time 2:07½.

A SIBERIAN EXILE.

The dispatches report that Jacob Koton, exiled to Siberia twenty-five years ago for taking part in a Polish demonstration against Russia, has arrived at Breslau, the capital of Silesia, a Prussian province. He says he escaped last Easter and concealed his identity until he reached Breslau. Though but forty-six years of age his hair is snow white and his face a mass of wrinkles. He has lost all his teeth, and his beard has every mark of old age. He describes his sufferings during his long exile as agonizing. He is wholly destitute, and is being cared for by friends.

WARD—In Susanville, Cal., July 27, 1891, to the wife of F. G. Ward, a son.

Peculiar

Many peculiar points make Hood's Sarsaparilla superior to all other medicines. Peculiar in combination, proportion, and preparation of ingredients. Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom.

Peculiar in its strength and economy—Hood's Sarsaparilla is the only medicine of which can truly be said, "One Hundred Doses Dollar." Medicines in larger and smaller bottles require larger doses, and do not produce as good results as Hood's. Peculiar in its medicinal merits, Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered."

Peculiar in its "good name at home,"—there is now more of Hood's Sarsaparilla sold in Lowell, where than of all other blood purifiers. Peculiar in its phenomenal record of sales abroad, and no other preparation has ever attained such popularity in so short a time, and retained its popularity and confidence among all classes of people so steadfastly. Do not be induced to buy other preparations, but be sure to get the Peculiar Medicine, Hood's Sarsaparilla Sold by all druggists. \$1; six for \$5. Prepared only by C. I. BREVITIES:

Bar silver 100%.

James T. Davis of Mound House is in town.

D. B. Lyman of Virginia arrived in Reno last night.

W. G. Waldron of the Railroad Gazetteer was in Reno last evening.

Evan Williams of Carson was a passenger for San Francisco last night.

Superintendent of Public Instruction O. King arrived from Tahoe last night.

The Times-Review says heavy rains are damaging the hay crop in northern Elko.

George W. Summerfield of Winnemucca returned yesterday from a visit to San Francisco.

P. N. Marker of Lovelocks passed through yesterday, homeward bound from San Francisco.

S. D. Brastow, Superintendent of Wells Fargo & Co's Express, arrived here yesterday on his way to Carson.

C. S. Young has purchased the Emerald Bay property at Lake Tahoe of Mrs. Kirby and will sub-divide it into small tracts.

State Controller R. L. Horton returned night before last from a visit to Austin where he arrived in time to see the flood.

Dan Huffaker celebrated harvest home yesterday, having finished haying, and treated the boys to a keg of beer and a barrel of lemonade.

J. M. Fulton, Master of Transportation on the N. C. O. Railroad has invited a number of citizens to ride to Amadeo today to see the country North of Reno.

Don't forget the races and baseball game at Steamboat Springs today. A special train will be run from Virginia and Carson and there will be a large crowd there.

R. L. Fulton says G. W. Cram of Battle Mountain has forty tons of alfalfa which was raised without irrigation, the land producing one and one-half tons to the acre.

Andrew Nicholas has returned from a visit to Austin. The Clerk of the weather got up an old-fashioned cloudburst while he was out there to remind him of old times.

Judge Boardman returned yesterday from San Francisco, where he was attending the United States Circuit Court. He was counsel for P. N. Marker in the Eagle lake case.

Colonel Hardin informs the Silver State that he is driving a thousand head of cattle, including about three hundred steers, from his Cottonwood ranch in California to his range in northern Humboldt.

J. E. Shober, of Shober, Deale & Co., and William Steele, of the London and San Francisco Bank, arrived last night and with D. C. Wheeler, will leave this morning for Susanville and the Blue Lakes.

There is said to be a scarcity of school teachers in New Mexico. It is estimated that three hundred teachers could find positions in the Territory by addressing the Superintendent of Education at Santa Fe.

Thomas Hope while under the influence of benzine, undertook to take the town, and the officers, in the interest of the public, took him up. Yesterday Justice Lion sent him to the county boarding house for 30 days.

The case of the State vs. the C. P. R. Co., involving the right to tax unsurveyed and unpatented lands, claimed by the railroad company, which was being tried at Austin, was submitted to the Court upon an agreed statement of facts.

Lawyer J. L. Wines, Land Agent R. L. Fulton, and E. B. Monroe, of the Surveyor General's office, returned night before last from Austin, where railroad land tax cases, in which one was engaged as counsel and the others as witnesses, were being tried.

The track at the State Agricultural Society's grounds is now in as good condition as it well could be. Public Administrator Peers, who takes a turn around the track almost every evening with his celebrated trotter "Billy," says it is good enough for any horse to train on.

The shipment of the pork product, including pork, bacon, ham and lard, from the United States for the year 1890 were 1,221,000,000 lbs. The total consumption of pork product exclusive of lard in the United States during 1890 is estimated at 3,653,000,000 lbs., which would make an average annual consumption per capita of over 58 lbs.

C. S. Young and his sister, Miss Cora B. Young, and aunt, Mrs. H. C. Mygatt, arrived in Reno yesterday from Lake Tahoe, and leave for Virginia City this morning. Mr. Young was formerly State Superintendent of Public Instruction in Nevada, and subsequently in connection with ex-Surveyor General Froble published the Gazette.

The store-keepers and saloon-keepers in Lincoln county have declared war against each other. The Record says a number of store-keepers have been arrested and fined for selling liquors in less quantities than a quart. The saloon men are charged with instituting the suits, and now the merchants are retaliating, charging the violation of the 12 o'clock law, selling liquors to minors, gambling without license, etc.

AGRICULTURAL LANDS.

An Opportunity to Acquire Them Without Forming Irrigation Districts.

The San Francisco Chronicle says: "The organization of irrigation districts and the formation of incorporations for engaging in irrigating operations is proceeding at a rapid pace all over the State. Never, indeed, was there so much activity in this line of development. Yesterday an irrigation district election was held at Tipton, Tulare county, and two others will shortly be held farther south. During the past week an incorporation was formed at Los Angeles with a capital of \$1,000,000 for the purpose of irrigating a large tract on the border of the Mojave desert in San Bernardino county. Irrigation enterprises are under way throughout the entire length of the State, from Lassen to San Diego county. No other element will enter so largely into the future prosperity of the State as the extension of irrigation."

The Austin Reveille prints the above and asks: "Will Nevada profit by California's experience and go ahead, or will she hang on to the old foggy ideas of non-progression and let dry rot eat out her foundation of greatness?"

Who the Reveille expects to answer its question we have no means of knowing and cannot guess, but if it knows of any considerable number of persons who are anxious to engage in farming it would assist in gratifying their desire and developing the resources of Nevada by directing their attention to the proposition of the Reno Water, Land and Light Company. This company offers to sell 1,000 acres of fertile land within four miles of Reno in tracts of forty acres, and extend an irrigation ditch from the Truckee river to the land. This, the Reveille will perceive, the company offers to do without the trouble of forming an irrigation district, and asking those who have farms to incur them to reclaim lands for others.

C. C. Powning also has a tract of land within a mile of the town limits of Reno, some of which is under cultivation, and all of which is covered by an irrigating ditch, which he will dispose of to settlers.

With this information, it is to be hoped the Reveille, instead of asking a question to which it cannot expect an answer, will direct persons seeking farms in Nevada this way or have them communicate with H. B. Rule, Secretary of the Reno Water, Land and Light Company, or C. C. Powning. There are also, so we are reliably informed, seventeen thousand acres of land, owned by the Marker Brothers at Lovelocks, seventy miles east of Reno, that settlers can purchase in tracts to suit without waiting to form an irrigation district.

THE EX-EMPEROR OF BRAZIL.

Dom Pedro the Second.

This monarch, now reported to be dying, was obliged to flee the country when the revolution in 1889 made Brazil a republic, was born in Rio de Janeiro in 1825. He was the son of the first Emperor of Brazil, Pedro de Alcantara, who abdicated in his favor when Pedro the Second was but six years old. He was crowned at the age of sixteen while the country was in a very disturbed state. In 1871 he left the Empire for a year under the regency of his daughter for a tour on the Continent and in England. He visited this country in 1875. Being a man of intelligence and liberality he governed Brazil with ability. The Empire made progress under his administration. Railroads were built, slavery abolished, finances placed on a sound footing and internal improvements actively carried on. He married in 1843 the Princess Theresa Christina Maria, daughter of Francis I, King of the Two Sicilies. She died in Portugal last year. The Empire of Brazil was looked upon by most monarchs with envy as being one of the most firmly established hereditary royal governments, consequently the world was startled by the sudden and bloodless revolution in 1889, which ousted the Emperor and substituted a Republic of Brazil instead of an Empire. Dom Pedro was ordered to leave the country and went to Portugal. He has resided in the south of France. He has been seriously ill for some time past.

The World Enriched. The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

RAILROAD POSSIBILITIES.

Almost Around the Earth in a Palace Car.

This earth of ours is about 24,000 miles in circumference and within a score of years we shall probably be able to make 20,000 miles of the journey in a palace car.

The New York Herald says: "We shall start, say from Boston, and follow the sun to San Francisco. There we shall be switched off on a line which will run through British Columbia to some port in Alaska—a line which even so conservative a railroad man as Charles Francis Adams prophesies will be in operation before the baby, who is now cutting his first tooth, celebrates his twenty-first birthday. At Alaska we shall take a short trip by water and reach the eastern terminus of the Siberian Railway in a few hours. From that point we shall skirt the northern boundaries of China and India, just graze Afghanistan, and entering Russia in Europe stop over at St. Petersburg for a night's rest. Then will come Berlin, Paris and London."

The Czar is pushing the Siberian Railway with great vigor. Half the distance to the Pacific has already been covered. When paying mines are developed in Alaska, as they will be, we shall connect the Territory to the States by the continuous whistle of locomotives. With these two lines in operation we can do the 21,000 miles with ease and comfort, and the other 3,000 across the Atlantic by steamer in five days or possibly less.

THE BLUE BUCKET DIGGINGS.

The Mythical Gold Mines of Southeastern Oregon.

The Silver State has the following relative to the mythical Blue Bucket gold mines, said to be located somewhere north of Stein Mountain, in southeastern Oregon:

"Recently a man went to Harney county, Oregon, to hunt for the Blue Bucket diggings, a section rich in gold, discovered by a company known as the Lost Company in 1842. This company was composed of several Eastern people, who were en route to Western Oregon. They discovered a strange looking substance, but considering it worthless, very little attention was given to it. One member of the company, being a child, merely through curiosity retained one of the nuggets, and when a settlement was reached it was pronounced gold. It was said that a wagon load was in sight, and for this reason many thousands of dollars have been spent in trying to locate them. The last man, who has just returned, followed instructions, but failed to find anything of value."

Don't Rush.

That is, do not leave a comfortable country for an uncertain city home. Here is a paragraph saying that the average wages of 150,000 girls in the city of New York is sixty cents a day, including the cash girls at two dollars. Deducting room rent, tens of thousands of these girls cannot have enough for comfortable clothing and nourishing food. This should serve as a hint to country girls who are planning to seek their fortunes in cities.

Even in a young city like Minneapolis the cases of disappointment and destitution are numerous and painful. There are scores of applicants for every place, and it is getting worse all the time.

Better keep away from cities unless you have remarkable ability. This applies even to those who are seeking for ordinary housework. An advertisement for a cook, a chambermaid or a girl for general work will be answered by twenty or thirty the same day. The intelligence offices are continually thronged with young women looking for work of this kind.

There is a demand for young women who can do good work in private homes. Some of these places are not desirable, perhaps not tolerable, no matter how high the wages. There are mistresses of homes of wealth who are ready to pay any price for thoroughly competent girls, but they do not know how to treat a girl.

They do not intend to be unjust. The trouble is, they do not know a good girl when they have one. Allowing for these and other exceptions, there remain hundreds of homes in Minneapolis where first class domestics would be welcomed to fair treatment and generous compensation.—Housekeeper's Weekly.

Too Much Feminine Politeness.

A street car conductor said "Young women in Washington indulge in a peculiar sort of politeness which is more calculated to injure the feelings of others than any rudeness of a deliberate nature that they could very well contrive. You will often see a girl of twenty odd get up in a street car to give her seat to a lady, quite a stranger, who is no more than middle aged. This is intended for a courtesy, presumably, but it is a very silly one, because its obvious intention is to exhibit a deference to superior age. Now, no woman likes to find herself regarded from that point of view, and the worst of it is that it is impossible for the victim of such a performance to show any resentment. All she can do is to decline to accept the place vacated, which is not very much satisfaction.

"I myself have frequently noticed women who had perceptibly passed their first youth offering their seats to others hardly older than themselves, so that it might seem as if this was a novel way of claiming to be young at some one else's expense. My observation is that few people, however old, are otherwise than mortified by being given seats in this manner on the cars. Old gentlemen are not less sensitive on the point than old ladies."—Cor. St. Louis Globe-Democrat

A Table Made of Human Flesh.

A writer in Harper's Magazine of February, 1895, gave the following description of a remarkable table made by Professor Segato: "It comprises every portion of the human body transformed into stone, destined to endure as long as one finished and polished, the other incomplete, made of mosaics formed by sections of human bones, brains, lungs, blood vessels, intestines and muscles, all as firm as marble, and showing the internal structure of each.

"Without an explanation a visitor would suppose them to be from some mosaic manufacture, for they are symmetrically arranged in squares, triangles and circles, with the great variety of colors nicely graduated. Different portions of the human body, showing the internal anatomy, are so perfectly petrified as to form a fine object of study for the medical student. Even morbid anatomy was subjected with entire success to this process. Animals of all kinds, chickens and reptiles, in short, nothing that has blood was capable of resisting Segato's petrifying touch."

Hard to Get.

Doctors are sometimes more considerate of their patients' needs than they are of their circumstances. It is easier to prescribe a journey to Europe or Bermuda than it is to fill the prescription.

A gentleman whose affairs had become very much embarrassed, and who was over-worked and overworn, went to a celebrated specialist, broken down with nervous exhaustion.

"Now," said the doctor, "there is only one thing that you must have, that is absence of worry, absence of care and freedom from all preoccupations."

"Am I obliged for your prescription," said the gentleman, "but you've left out one important thing in it."

"What is that?"

"You haven't put in the apothecary's street and number."—Exchange.

REMARKS AND CONDITIONS.

Nominations and entries to all stakes must be made to the Secretary on or before the 22d day of August, 1891. Entries for the purses must be made two days preceding the race, at the regular time for closing entries as designated by the rules. Those who have nominated in stakes must name to the Secretary in writing which will start the day before the race, at 4 P. M. Horses entered in purses can only be drawn by consent of the Judge.

Entries to all trotting and pacing races will close September 6th, with the Secretary.

Five or more to enter and three or more to start in all trotting races.

National Trotting Association Rules to govern trotting races. Pacific Coast Blood Horse Association Rules to govern running races.

All trotting and pacing races are the best three in five, unless otherwise specified; five to enter and three to start. But the Board reserves the right to hold a less number than five to fill, by the withdrawal of a nomination amount of the purse to be divided pro rata. Entrance fee, 10 per cent, on purse; to accompany nomination.

National Association Rules to govern trotting; but the Board reserves the right to trot heats of any two classes alternately, if necessary to finish any day's racing, or to trot a special race between heats. A horse making a walk-over shall be entitled only to the entrance money paid in. When less than the required number of starters appear, they may consent for the entrance money, to be divided as follows: 60% to the first and 30% to the second.

In divided purses no horse shall receive more than one money.

In all the foregoing stakes the declarations are void unless accompanied by the money.

Please observe that in the above stakes, declarations are permitted for a small forfeit.

In all running races entries not declared out by 6 P. M. of the day preceding the race shall be required to start.

When there is more than one entry by one person, or in one instance, the particular horse they are to start must be named by 6 P. M. of the day preceding the race. No added money paid for a walk-over.

Racing colors to be named in entries.

In trotting races drivers will be required to wear caps of distinct colors which must be named in their entries.

Each day's races will commence promptly at 1 o'clock P. M.

All entries must be directed to **C. H. Stoddard**, Reno, Nevada.

W. H. GOULD, President.
C. H. STODDARD, Secretary.
